

College of Engineering Summer Research Experience for Undergraduates in **BIOMECHANICS AND MECHANOBIOLOGY**

Are you considering a graduate degree or have a growing interest in the field of biomedical engineering? **Attend our summer BUCKEYE REU.** Our *Biomechanics and Mechanobiology* research is uniquely housed in the colleges of engineering and medicine, which provides an ideal opportunity for you to contribute to research that will address clinical needs and improve patient health.

PROGRAM BENEFITS

- 10-week hands on research in biomechanics or mechanobiology
- Professional development workshops, industry and clinical lab tours, journal club
- Social and networking opportunities
- On-campus housing

ELIGIBILITY

- Undergraduate students in Engineering, Physics, Mathematics, Life Sciences or other related science major
- U.S. citizen or permanent resident
- Sophomores, juniors or seniors enrolled in 2- or 4-year colleges or universities in the U.S.
- Interest in BMMB research projects as reflected in their application materials
- No prior research experience required

AWARD

- \$6,000 stipend
- Meal allowance
- Housing
- Travel allowance (up to \$1,000)
